

Ideation Phase

Brainstorm&Idea Prioritization Template

Date	23rd May 2025
Team ID	LTVIP2025TMID41850
Project Name	SHOPEZ
Maximum Marks	4 Marks

Step 1: Team Gathering, Collaboration & Problem Statement Selection

Define the Problem or Opportunity Area

Problem Statement:

"How can we simplify the online shopping experience for users while empowering sellers with better tools to manage their business on ShopEZ?"

Participants:

- Product Owner
- Frontend Developer
- Backend Developer
- UX Designer
- Marketing / Content
- Seller Representative

Step 2: Brainstorm, Idea Listing & Grouping

Encourage bold thinking. Don't judge. Just capture!

Instructions:

- Set a timer: 10 minutes
- Each team member writes 3–5 ideas (on sticky notes or a whiteboard)
- Group similar ones once everyone shares

Brainstorm Categories

Category	Sample Ideas
----------	--------------

User Features	- Wishlist feature - Personalized product feeds - Order tracking with notifications
Seller Tools	- Bulk product upload - Order analytics - Inventory alerts

Category	Sample Ideas
 Admin Oversight	- Suspicious activity reports - Sales dashboard - Seller rating system
 Monetization	- Flash sales module - Featured product slots - Tiered seller subscriptions
 UI/UX	- Dark mode - Product video previews - Easy checkout flow
 Engagement	- Push notifications - Email order summaries - Refer-a-friend rewards

✓ Step 3: Idea Prioritization

Use an “Effort vs. Impact” Matrix

Draw or visualize this 2×2 matrix:

	High Impact	Low Impact
Low Effort	★ Quick Wins (Do First)	✓ Easy Enhancements
High Effort	📅 Major Projects (Plan)	⌚ Delay / Backlog

Color-code ideas:

- = User
- = Seller
- = Admin
- = General/Platform

🎯 Optional: Dot Voting

Each team member gets 3 votes to choose top ideas.

 Top Voted Ideas	Votes
Personalized Product Feed	6
Bulk Product Upload (Seller)	5
Push Notifications (Orders)	4
Flash Sales	3

Final Prioritization Table

💡 Idea	🌟 Impact	🔗 Effort	🎯 Priority	Owner
Personalized Feed	High	Medium	☆ High	Frontend Dev
Bulk Product Upload	High	Medium	☆ High	Backend Dev
Push Notifications	Medium	Low	✓ Medium	Full Stack
Flash Sales Module	High	High	📌 Medium	Backend + UX
Seller Rating System	Medium	High	🚫 Low	Future Sprint

1 Step 2: Team Gathering, Collaboration & Problem Statement Selection

- ✓ Define the Problem or Opportunity Area

📋 Problem Statement:

How can we enhance online shopping experience for users and streamline operations for sellers on ShopEZ

Participants:

- Product Owner
- Frontend Developer
- Backend Developer
- UX Designer
- Marketing / Content
- Seller Representative

Brainstorm Categories		Sample
User Features	Wishlist	Order tracking
Seller Tools	Bulk upload	Inventory alerts
Admin Tools	Sales analytics	Seller ratings

2 Step 3: Idea Prioritization

→ Use "Effort vs. Impact" Matrix

Use & Effort	Impact Enhancements
● Quick Wins	High Impact
● Major Projects	Medium Impact
● Delay / Backlog	Low Impact

● = user ● = platform
 ● = seller ● = general
 ● = Final voted Ideas / votes

Idea	Impact	Effort	Priority
Personalized Product Feed	● High	Medium	★ High
Bulk Product Upload (Seller)	● High	Medium	★ High
Push Notifications	Medium	Low	● Medium
Flash Sales	● High	High	● Low
