Project Name	ShopEZ
Maximum Marks	2 Marks

Problem – Solution Fit Template:

The Problem-Solution Fit simply means that you have found a problem with your customer and that the solution you have realized for it actually solves the customer's problem. It helps entrepreneurs, marketers and corporate innovators identify behavioral patterns and recognize what would work and why

Purpose:

- ☒ Solve complex e-commerce challenges by aligning with the needs and behavior of customers and sellers.
- ☒ Accelerate solution adoption by integrating familiar shopping patterns and intuitive digital experiences.
- ☒ Refine marketing and communication with relevant messaging focused on convenience, trust, and value.
- ☒ Maximize engagement through touchpoints like personalized recommendations, fast checkout, and responsive support.
- ☒ Understand customer pain points and seller inefficiencies to deliver a platform that is fast, reliable, and scalable.

Problem Statement:

Many customers and sellers face challenges in using existing e-commerce platforms due to:

- Difficulty in finding reliable, personalized product suggestions
- Time-consuming checkout processes and lack of order transparency
- Sellers lacking tools to manage products, track orders, and access sales insights
- Limited accessibility across devices and user types

Solution:

ShopEZ, an online shopping platform, will offer:

- A wide product catalog with filters, reviews, and personalized recommendations
- A fast and secure checkout experience with real-time order confirmation
- A dedicated seller dashboard for managing listings, processing orders, and viewing analytics
